

APHIS LIST OF REPORTING CATEGORIES

Definition of Reporting Category: Reporting categories identify program line items or components of line items and are associated with the use of appropriated or emergency funding in APHIS. There are several general and administrative reporting categories that record APHIS overhead. The spending in these reporting categories is periodically distributed to the line items. The codes listed in the Reporting Category Table are those reporting categories approved by the Financial Management Division (FMD).

Difference between Reporting Category and Program Class Reporting Categories with Different Funding Sources Funds Requiring a Reporting Category and Program Class Listing of Reporting Categories and the Program Class Used for Fund 52

Reporting categories must be used only for the purpose indicated so that reporting category reports can accurately reflect spending. Not all funds have reporting categories. The list below identifies the funds that must use a valid reporting category. In these funds, the reporting category is the last three digits of the program code.

Fund Codes Needing Reporting Categories		
Fund Code	Description	Reporting Category
10	Imprest fund advances	Yes
11	Emergency activities	Yes
12	HUB relocation	Yes
15	Homeland Security Supplemental	Yes
16	Emerging plant pests	Yes
17	No-year Inter-USDA reimbursables	No
18	No-year Non-USDA reimbursables	No
20	Animal Care Supplemental	Yes
21	Trade Negotiation and Biotechnology	Yes
25	No-year Homeland Security KS Cooperative	Yes
39	DHS Reimbursement	No
41	AQI user fees	Yes
52	Program delivery	Yes
57	Inter-USDA reimbursable agreements	No
58	Non-USDA Federal reimbursable agreements	No
59	Non-Federal reimbursable agreements	No

Fund Codes Needing Reporting Categories		
Fund Code	Description	Reporting Category
60	Hazardous waste management	Yes
61	Low Pathogen Avian Influenza	Yes
62	Animal ID (AHMS)	Yes
63	Vaccine Bank (EMS)	Yes
64	WS Methods Development	Yes
65	WS Operations Program- Aviation Safety	Yes
70	Travel advances	Yes
72	Contingency funds	Yes
73	No-year reimbursable agreements	No
75	Import/export user fee activities	Yes
76	Integrated Systems Acquisition Project	Yes
77	Boll weevil	Yes
78	Screwworm	Yes
79	Fruit fly	Yes
83	Miscellaneous contributed funds	No
85	Buildings and facilities	No

New reporting categories are to be set up by the Budget and Program Analysis Staff (BPAS) of Policy and Program Development. They can be set up any time during the year, as new programs emerge. When BPAS creates new reporting categories for these funds, they refer to the Reporting Category Table below and identify an un-used code. They also determine the program class (PCLS) and program group (PGRP) if the reporting category is to be used in Fund 52. The FFIS Functional Administrator then sets up the new code in FFIS. The terms “program class” and “program group” are explained in Exhibits 5-4 and 5-5.

All accounting codes in funds 17, 18, 57, 58, 59, 73, and 83 are for agreements or trust funds where we are performing the work. The last three digits of the accounting code associated with these funds identify individual agreements or trust funds and do not need to be approved by FMD. However, when assigning accounting codes to agreements and trust funds, **divisions should take care to avoid duplicate numbering within their program unit.**

Some reporting categories can have funding from different sources. For example, reporting category 221- Sudden Oak Death has the following funding:

1. From the commodity credit corporation as emergency funding (Fund 11),
2. From the Emerging Plant Pest line item (Fund 16),
3. From appropriated dollars (Fund 52), and
4. From contingency funding (Fund 72) to cover unfunded expenditures.

The Reporting Category Table lists all reporting categories, regardless of the fund with which it is being used. Except for Fund 52, the program class and group assigned to each reporting category are dictated by the fund being used, as seen in Figure 5-1 – APHIS Fund Codes. To continue with the example, the program class and group for Sudden Oak Death would depend on the funding:

When used with:	The program class will be:	The program group will be:
Fund 11	Commodity Credit Corporation	Emergency Funding
Fund 16	Pest and Disease Management	Emerging Plant Pests
Fund 52	Plant and Animal Health Monitoring	Plant Methods and Development
Fund 72	Contingency Fund	Contingency Fund
